

NATIONAL
HEALTH FREEDOM
COALITION

NHFC

2022 Annual Report

www.nationalhealthfreedom.org

A MESSAGE FROM THE PRESIDENT

Rosanne Lindsay, President

“We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.”

– Thomas Jefferson,
The Declaration of
Independence, 1776

Dear Friends of Health Freedom,

On behalf of the Board of the National Health Freedom Coalition (NHFC), I thank you for your generous support over the last year as we continue the work to protect health freedom for all Americans during times of imbalance and uncertainty.

In 2022, Americans saw the dissolution of illegal mandates for masking, medical testing, and vaccines, state by state. Yet, some medical doctors who failed to follow strict CDC COVID policies lost their licenses. While global leaders under G20 agreed that digital IDs and COVID vaccines should be required for all international travel, the people got busy protecting health freedom where they live. NHFC was there to assist.

Staff and attorneys at NHFC educated leaders in many state groups, not only on how to understand the legislative process, but also providing them with model legislation.

In September, NHFC hosted the 13th US Health Freedom Congress in Minnesota, bringing together 38 Health Freedom organizations and many additional leaders to collaborate and pass resolutions on topics from genetic privacy to EMF radiation. Scott Tips, of the National Health Federation gave the Congress keynote.

NHFC took the health freedom message on the road in 2022 to: the Trinity Health Freedom Expo in Tinley Park, Illinois; Hippocrates Wellness in Palm Beach, Florida; Health and Freedom Summit in Nashville, Tennessee; The Children’s Health Defense Conference in Knoxville, Tennessee; and the Natural Living Expo in Marlboro, Massachusetts. NHFC also spread the message of health freedom via the Robert Scott Bell Show, and on CHD. TV’s The Solution, with Tony O’Donnell.

With continued attempts by global organizations to usurp individual rights and freedoms, NHFC is here to hold the vision for a truly free America where your right to access services and your right to choose is protected. Subscribe to our email alerts to gain knowledge on what is happening in the courtrooms, the legislatures, and in world politics. Join us in an effort to make 2023 a bold new year for health freedom and against all medical mandates. We cannot make it happen without you.

Thank you.

In health freedom,

A handwritten signature in black ink that reads "Rosanne Lindsay". The signature is fluid and cursive.

Rosanne Lindsay, ND, MA

President, National Health Freedom Coalition

National Health Freedom Coalition stands against medical mandates and holds a vision for an America where all people make their own health decisions in an environment free of coercion!

While 2022 saw continued attempts to infringe on our rights to make decisions about our own healthcare, NHFC is more determined than ever to work to protect our freedoms.

In spite of many great wins for health freedom in courts across the country, many healthcare workers, teachers, students, firefighters, police officers, our military, state employees and many others are still being faced with coercive tactics aimed at getting them to acquiesce to medical mandates against their will.

As NHFC teaches citizens and groups across the country how to impact health freedom public policy, we are seeing a big surge in the number of people stepping up and getting involved.

NHFC attorneys meet with many groups, coaching them on how to participate in the legislative process. We have responded to requests from Massachusetts, California, Vermont, Illinois, Ohio, Alabama, Oregon and more. Some citizens are concerned with practitioner rights to practice the healing arts. Other groups are concerned about mandates surrounding Covid. Once a group is ready to move forward, they often decide to pass a bill. That is the point where NHFC's sister lobbying organization, NHFA, steps in and works with the group to move legislation. NHFC provides legislative research on bills in all 50 states and in the federal government on health freedom.

We pledge to
continue to raise
awareness about
the critical
importance of
health freedom
rights...

... and what citizens
can do to protect
these rights.

Diane Miller, Director of Law and Public Policy speaking at the US Health Freedom Congress

We are a country of laws, and thus it matters what our laws say! NHFC attorneys are experts at visioning new legislation that adequately protects our inalienable rights as humans on the planet.

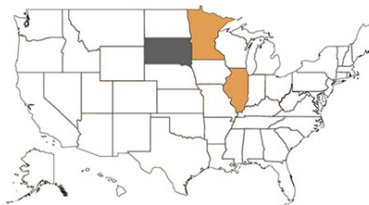

Practitioner Right to Practice - Today, eleven states have safe harbor practitioner exemption laws in place that ensure both the right to practice and consumer access to herbalists, homeopaths, health coaches, and many others. We are hearing from people all over the country saying, "We want to do this in our state!" Currently, Oregon, Connecticut, and Massachusetts have groups working on similar policies. We were excited when Wisconsin's Complementary and Alternative Practices bill successfully passed through the full Assembly and Senate - but disappointed to see it vetoed by Governor Evers.

Right to Decline Emergency Countermeasures

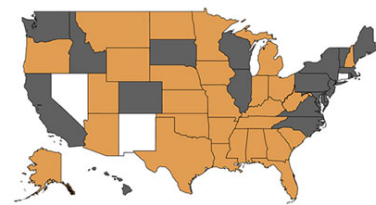

The Righttorefuse.org website supports the constitutional right of each person to decline countermeasures such as testing, tracking and vaccination during a health emergency. 2022 showed amazing gains in the number of states getting involved in protecting their rights:

**The Right to Refuse Movement
Makes Great Progress in 2022!**

January 2020

December 2022

Has not yet introduced a Right to Refuse bill

Has introduced at least 1 Right to Refuse bill

Has passed at least 1 Right to Refuse law

Between 2020 and the end of 2022:

**47 states filed protective RTR bills
780+ RTR bills were filed over the past 2 years
27 states passed at least one Right to Refuse bill
70+ Right to Refuse bills passed into law!**

Raising Awareness Across the Nation

NHFC gave presentations at a number of virtual conferences and in-person gatherings. We traveled to Hippocrates Wellness in West Palm Beach, FL; Health and Freedom Summit in Nashville, TN;

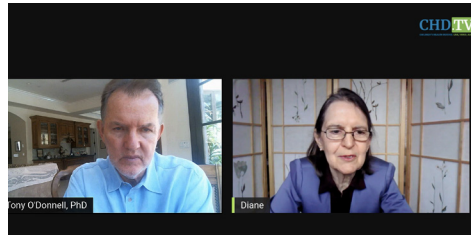

Diane Miller presents at the Trinity Health Freedom Expo

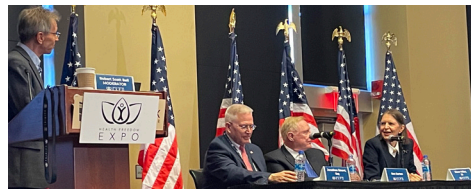

Trinity Health Freedom Expo in Tinley Park, IL; The Children's Health Defense Conference in Knoxville, TN; and the Natural Living Expo in Marlboro, MA;

Julie Booras represents NHFC at the Natural Living Expo in Marlboro, MA

Diane Miller on The Solution with Tony O'Donnell along with virtual presentations and interviews on the Robert Scott Bell Show and CHD.TV's The Solution with Tony O'Donnell.

Diane Miller on Health Freedom Panel with Johnathan Emord and Dan Burton in Tinley Park, IL

We pledge to continue to raise awareness about the critical importance of health freedom rights, and what citizens can do to make changes protecting the fundamental right of all Americans to bodily autonomy, and the freedom to make one's own health decisions for themselves and their families.

2022 Health Freedom Congress

NHFC brought health freedom leaders together and hosted its 13th US Health Freedom Congress. The theme: "Health Freedom: Piercing the Veil of Indoctrination." Representatives of thirty-eight leading health freedom organizations in the US and fifty additional leaders and participants, joined together to put forth ideas and discuss strategies that aim to strengthen the health freedom movement. Always key to the Congress activities is the creation of alliances and collaboration between organizations.

We work to create a space where diverse individuals can come together in an environment that fosters creativity, empowers collaboration, and creates meaningful outcomes.

2022 US Health Freedom Congress

Together we can
pierce this veil
of indoctrination
by continuing
to show up, pay
attention, and
tell the truth.

We work to create
a space where
diverse individuals
can come
together in an
environment that
fosters creativity,
empowers
collaboration,
and creates
meaningful
outcomes.

2022 Health Freedom Congress

Friday September 21, 2022 the 38 Congress voting member organizations took their seats in the Congress circle as additional attendees seated in the surround. Each organization presented their mission and seven proposed resolutions that were lively discussed during the day.

The Congress was held in wireless free spaces with routers turned off and attendees phones off. Camilla Rees of ElectromagneticHealth.org presented about the dangers of wireless radiation.

The Right to Refuse project leaders presented on their efforts to work collaboratively with states across the nation to draft and file protective health freedom legislation that will protect bodily autonomy without coercion or discrimination.

A panel discussion with Robert Scott Bell, Ty and Charlene Bollinger and Stephanie Locricchio discussed their experiences, challenges, successes, and methods they use to pierce the veil of indoctrination and overcome censorship. The Robert Scott Bell Show broadcasted live from the Congress.

Friday night included an original music performance by Lori B. Williams performing her freedom song “We Are The Product They’re Planning To Use”; **Wil and Carly Crombie of Organic Compound** presented on Community Powered Regenerative Agriculture; and Jennifer Sharp, film maker, director, editor, and writer, offered a **premiere screening of her film Anecdotal**.

Saturday was dedicated to **Open Space** small and large group discussions and visioning led by facilitator Denise Lewis Premeschak.

The Congress culminated Saturday night in a beautiful organic **Health Freedom Awards Banquet with Attorney Scott Tips JD, President, National Health Federation as the Keynote address.**

Awards were given to:

Health Independence Alliance Utah

For their work envisioning and implementing the successful passage of Utah’s SB144 prohibiting genetic procedures.

Safe Harbor Maine

For their work to protect Maine health seekers’ right to access homeopathic practitioners and many other traditional, cultural, complementary and alternative health care therapies. The bill was signed into law June 11th, 2019.

The film ANECDOTALS

A compassionate exploration of the nuanced vaccine debate directed by Jennifer Sharp.

Scott Tips, JD

For his steadfast and profound leadership in the health freedom community since 1989 and his work as President of The National Health Federation. The breadth of Scott’s knowledge nationally and internationally on matters of health and freedom is unsurpassed and he is a national resource for leaders around the world.

Robert Scott Bell, Filmmaker Jennifer Sharp, and Julie Booras, NHFC

Scott Tip, JD gives keynote at the Health Freedom Awards Banquet

We look forward to continuing to nurture relationships with health freedom leaders and embrace our new allies in the spirit of love, unity and understanding. Together we can pierce this veil of indoctrination by continuing to show up, pay attention, and tell the truth.

NHFC and NHFA Staff and Board: Leo Cashman, Lynnette Albrecht, Dr. Karen Moriarty, Julie Booras, Judy Buroker, Diane Miller, Steven O'Connor, Jerri Johnson, Nate Gorman

Our work today,
after two decades,
seems more vitally
important than
ever, as we stand
together to defend
our basic human
rights.

New Board Members and Staff

Jeanne Handke, new NHFC Board Member

Jeanne Handke comes to the health freedom movement after facing several challenges to the healthcare choices of herself and her family. Her introduction

to alternative forms of healing began with homeopathy and the profound healing experiences it provided to her son. These events not only introduced her to other modalities, but also the advocacy and education that accompanied it. These practices inspired her to become a board-certified massage therapist and Reiki Master. After receiving her Associate in Applied Science in Massage Therapy from Minnesota State College Southeast, she opened her business in Winona, Minnesota in 2010, which she currently operates with her daughter. She taught massage therapy as an instructor at Minnesota State College Southeast and continues to teach Reiki at her business.

Jeanne's experience advocating for her family's healthcare choices and the wishes of her clients have brought her into contact with the legal and political obstacles faced by those who choose alternative forms of healing. Along with her family, Jeanne continues to share her knowledge and inform others about the importance of healthcare freedom.

Nathan Gorman, new NHFC team member

We are excited to introduce our newest team member, Nathan Gorman. Nate is currently working for NHFC and NHFA as a legislative and policy advisor. He

comes to NHFC/NHFA as an experienced professional lobbyist working for nearly two decades in Colorado. He developed relationships as a trusted resource to legislators, regulators, governors and leaders across many industries and interests in the state on behalf of clients he represented. Importantly, his experience working on behalf of complementary and alternative health care providers provides helpful insights for health freedom in the states. His work contributed to the successful passage of Colorado's Safe Harbor exemption bill in 2013. He also led many statewide ballot and local candidate campaign efforts in Colorado. Today he is based in Florida helping health freedom activists, sharing experiences and strategies that have proven effective for their public policy advocacy efforts in their states.

Nate has a diverse background he brings to public policy advocacy. He's a USAF veteran, has been a restaurateur and an investment adviser. He is a graduate from the University of Texas where he studied Finance and Speech Communication. He has been a leader in several volunteer community organizations, including as past president of his local Junior Chamber of Commerce and his alumni association.

Meet the team:

BOARD OF DIRECTORS

Leo Cashman
*Treasurer, Secretary
