2012 Health Freedom Awardee Tributes

Wynn Werner and NMCAAMP (New Mexico Complementary and Alternative Medicine Project)

Wynn Werner, an Ayurvedic practitioner, worked with a NMCAAMP team of activists to protect New Mexico health seekers' rights to access traditional, cultural, complementary and alternative health care therapies and remedies. They successfully introduced and lobbied New Mexico's "safe harbor health freedom bill", HB664, the "Unlicensed Health Care Practice Act". The bill was signed into law April 7, 2009. A 2007 New Mexico Senate Memorial bill stated: "New Mexico has a long history of cultural healers, including the curandera, sobaora, partera, mecia and arbolaira, and healing traditions, including plant medicines and foods, prayer, ceremony and song, and these traditions must be shared with current generations and preserved by future generations...". Werner is now Administrator of the Ayurvedic Institute, recognized as a leading Ayurvedic school and Ayurveda health spa outside of India, established in 1984 to teach the traditional Ayurvedic medicine of India and to provide these ancient therapies. Ayurvedic healing includes herbs, nutrition, panchakarma cleansing, acupressure massage, Yoga, Sanskrit, and Jyotish (Vedic astrology).

Judith McGeary, JD, and the Farm and Ranch Freedom Alliance

Administrative law, litigation and appeals practice in a wide range of areas is only the beginning for attorney McGeary. In addition, Judith is also a farmer and one of the country's leading advocates for family farmers producing safe, nutritious food for local and regional markets. As the founder and executive director of the Farm and Ranch Freedom Alliance (FARFA), Judith has successfully fought federal and state policies that would harm small and sustainable farms. Most notably, FARFA was instrumental in building a coalition of 157 organizations to endorse the famous "Tester Amendment" on the Food Safety bill of 2011, protecting small sustainable farms. As a principal of Langley & McGeary, Judith combines her expertise in law and policy with her dedication to helping individuals."

Becky Hanks and Virginians for Health Freedom

Becky Hanks and Virginians for Health Freedom successfully negotiated and lobbied a safe harbor health freedom amendment to a restrictive Virginia Massage Licensing Bill in 2012, in order to protect the rights of unlicensed body workers and natural health practitioners to be able to continue to provide their services, but in the end the Governor vetoed the entire licensing bill. Becky is a Master Herbalist, Certified Natural Health Professional, and has a Doctorate of Naturopathic Ministries. In 2006 she founded the Virginia Chapter of the Certified Natural Health Professionals, and she currently serves as the legislative coordinator for Virginians for Health Freedom.

What will you do if they crush your health-freedom rights?

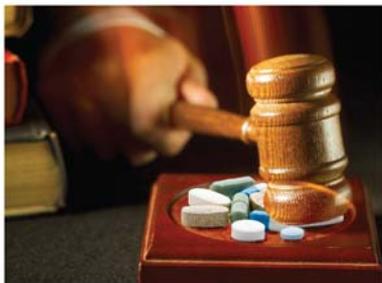

You can't put a price on your good health and peace of mind. Yet there are those who would do just that – simply for the sake of pushing prescription drugs like statins, pain relievers, and antidepressants.

When that day arrives, your vitamins, supplements and alternative health practices may very well skyrocket in price. Or be taken from you entirely.

Is there a way to fight back? A way to defend your health freedoms and your moral right to control what goes into your own body?

The answer is yes. For more than 57 years, the National Health Federation has stood on the front lines across the world, safeguarding and advancing your right to consume healthy food and supplements, and to use alternative life-saving therapies.

But the NHF can't do it alone. We need your support to eliminate restrictive health laws and to further advance what health freedoms we now have. It's easy to join. Become part of our powerful global community and send in your membership today.
