

**USHFA<-2007-Resolution Re: Establish committee to investigate and design
information coordination center
Resolution 5**

**Establish a committee to investigate and design an
information coordination center**

**2007 United States Health Freedom Assembly & Leadership Training
William Mitchell College of Law, St Paul, MN
October 12 – 14, 2007**

The U.S. Health Freedom Assembly shall establish a committee to investigate and design the establishment of an information coordination center that can rapidly evaluate and disseminate health freedom information, which will employ a central database of health freedom member information and the means to disseminate information to and from via mail, email, fax, phone, and other media outlets to legislators, government agencies, industry, the general public, and other principals involved with health freedom issues.
